Summary

I am a developer with a diverse background coming from an 18 year career in retail and operational management within the optical industry. I'm adept in HTML, CSS, JavaScript, and Python. Currently learning PHP as well as FTP.

Experience

Junior Developer | Whoosh Media | January 2024 - Present

Experienced JavaScript and Postgres developer at Whoosh Media, adept at crafting dynamic and responsive web solutions. Currently expanding skill set with a focus on learning PHP to enhance proficiency in full-stack development.

Front End Developer | Self Employed | March 2023 - January 2024

I stepped away from my role in optics and during this time, I committed myself to learning full stack coding. Working independently on various projects for different companies.

Lab Manager | Cubitts | London | September 2021 - March 2023

Orchestrated the seamless integration of cutting-edge MEI and Innovations software systems, ensuring optimal operational efficiency.
Applied a data-driven approach to track and exceed key performance indicators (KPIs), meticulously maintaining machinery, and overseeing software installations with precision and accuracy.

Optical Store Manager | Cubitts | London | October 2018 - September 2021

Exercised astute judgment in driving KPIs, nurturing team development, meticulously managing staff rota and payroll, implementing incentivization programs, and executing exceptional area management strategies.

Retail Operations Manager | KITE Eyewear | London | April 2015 - October 2018
In-Store Trainer / Lab Supervisor Store Manager | Specsavers | September 2012 - April 2015
Lab Supervisor, Optical assistant | Vision Express | Winchester, Andover | 2008 - 2012
